

INSTRUCTION

Summer School

It shall be the policy of the Central Kitsap School District to offer a program of summer school classes where there is sufficient demand. Such courses shall be offered as a service to the local and surrounding community and should be of instructional, recreational, or cultural value.

Guidelines:

1. The concept of summer school for enrichment and remedial purposes is sound and should be continued.
2. The summer is a good time to conduct some in-service training for teachers; if feasible, some of this can be done in the summer school program.
3. The summer is a good time to do some experimentation and/or innovation; when feasible, some of this should be done.
4. A concerted effort should be made to extend the summer school program.
5. Summer school should be self-supporting with the exception of programs designed for students who are invited to attend tuition-free summer school.
6. To help make the summer school program a success a limited amount of financial assistance should be available in case of need. The amount of assistance to any course would depend on the value of the course to the total school program and the amount of money deemed available for such purposes.
