## Trouble Logging In? Try these steps...

1. Clear your browser history all cookies before trying to log in again.
2. Change your portal-related email to a personal address.
3. Reset password with the confirmation code going to a cell phone.

## Tips if the above steps don't work...

1. If you keep trying to login with the wrong information, you will eventually get locked out of the portal, so if you fail to login more than two or three times, try using the **Forgot Password** process. This should keep accounts from being locked due to too many login attempts.
2. If you select the **Forgot Password** process, you will receive a confirmation code to the *email you used when registering to the Escape Online Portal*. Once the code is received, you will have 5 minutes to type in the code into the window. **Do not to copy and paste the code into the portal**, instead type it. If you do copy and paste the code, the portal will say it's incorrect.
3. Once you type the code, click **Confirm**.

**\*\*WRITE DOWN AND SAVE YOUR USERNAME AND PASSWORD IN A SAFE AND PRIVATE LOCATION. \*\***

If after trying all the steps and tips above, you are still having issues *Logging into the Portal*, please take a screenshot of what your Screen looks like and email it to Cindy Garcia at [cindygarcia@ccoe.net](mailto:cindygarcia@ccoe.net). This way we can submit a ticket to Escape for their assistance.
