This policy shall be disseminated annually to all school staff, students, and parent(s)/guardian(s). The Title IX Coordinator as well as any personnel chosen to facilitate the grievance process shall not have a conflict of interest against any party of the complaint.³ These individuals shall receive training as to how to promptly and equitably resolve student and employee complaints.

All employees shall receive training on complying with this policy and federal law.

DEFINITIONS

“Complainant” is an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

“Respondent” is an individual who is reported to be the perpetrator of conduct that could constitute sexual harassment.

“Sexual harassment” is conduct on the basis of sex that satisfies one or more of the following:

1. A school district employee conditioning an aid, benefit, or service of an education program or activity on an individual’s participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the education program or activity; or
3. Sexual assault, dating violence, domestic violence, or stalking as defined in state and federal law.

Behaviors that constitute sexual harassment may include, but are not limited to:

1. Sexually suggestive remarks;
2. Verbal harassment or abuse;
3. Sexually suggestive pictures;
4. Sexually suggestive gesturing;
5. Harassing or sexually suggestive or offensive messages that are written or electronic;
6. Subtle or direct propositions for sexual favors; and
7. Touching of a sexual nature.

Sexual harassment may be directed against a particular person or persons, or a group, whether of the opposite sex or the same sex.

“Supportive measures” are non-disciplinary, non-punitive, individualized services and shall be offered to the complainant and the respondent, as appropriate. These measures may include, but are not limited to, the following:

1. Counseling;
2. Course modifications;
3. Schedule changes; and
4. Increased monitoring or supervision.

The measures offered to the complainant and the respondent shall remain confidential to the extent that maintaining such confidentiality would not impair the ability of the school district to provide the supportive measures.

GRIEVANCE PROCESS

Upon learning of an instance of alleged sexual harassment, even if no formal complaint is filed, the Title IX Coordinator shall:

1. Promptly contact the complainant to discuss the availability of supportive measures;
2. Consider the complainant’s wishes with respect to supportive measures;
3. Inform the complainant of the availability of supportive measures; and
4. Explain the process for filing a formal complaint.

While the school district will respect the confidentiality of the complainant and the respondent as much as possible, some information may need to be disclosed to appropriate individuals. All disclosures shall be consistent with the school district’s legal obligations and the necessity to investigate allegations of harassment and take disciplinary action.

Disciplinary consequences or sanctions shall not be initiated against the respondent until the grievance process has been completed. Unless there is an immediate threat to the physical health or safety of any student arising from the allegation of sexual harassment that justifies removal, the respondent’s placement shall not be changed. If the respondent is an employee, he/she may be placed on administrative leave during the pendency of the grievance process. The Title IX Coordinator shall keep the Director of Schools informed of any employee respondents so that he/she can make any necessary reports to the State Board of Education in compliance with state law.

Complaints

Any individual who has knowledge of behaviors that may constitute a violation of this policy shall immediately report such information to the Title IX Coordinator, however, nothing in this policy requires a complainant to either report or file a formal complaint within a certain timeframe. If the complaint involves the Title IX Coordinator, the complaint shall be filed with the Director of Schools.

If a complaint involves allegations of child abuse, including child abuse on school grounds, appropriate notification shall be made per the board policy on reporting child abuse.

Upon receipt of a formal complaint, the Title IX Coordinator shall promptly:

1. Provide written notice of the allegations, and the grievance process to all known parties to give the respondent time to prepare a response before an initial interview;
2. Inform the parties of the prohibition against making false statement or knowingly submitting false information;
3. Inform the parties that they may have an advisor present during any subsequent meetings; and
4. Offer supportive measures in an equitable manner to both parties.

If the Title IX Coordinator dismisses a complaint, written notice, including the reasons for dismissal, shall be provided to both parties simultaneously.

Investigations

The Human Resources Supervisor and the Student Services Director shall serve as the investigators and be responsible for investigating complaints in an equitable manner that involves an objective evaluation of all relevant evidence. The burden for obtaining evidence sufficient to reach a determination regarding responsibility rests on the school district and not the complainant or respondent.

Once a complaint is received, the Investigator shall initiate an investigation within forty-eight (48) hours of receipt of the complaint. If an investigation is not initiated within forty-eight (48) hours, the investigator shall provide the Title IX Coordinator with appropriate documentation detailing the reasons why the investigation was not initiated within the required timeframe.

All investigations shall be completed within twenty (20) calendar days from the receipt of the initial complaint. If the investigation is not complete within twenty (20) calendar days, the investigator shall provide the Title IX Coordinator with appropriate documentation detailing the reasons why the investigation has not been completed.

All investigations shall:

1. Provide an equal opportunity for the parties to present witnesses and evidence;
2. Not restrict the ability of either party to discuss the allegations under investigation or gather and present relevant evidence;
3. Refrain from requiring, allowing, relying upon, or otherwise using questions or evidence that seek disclosure of information protected under a legally recognized privilege unless such privilege has been waived;
4. Provide the parties with the same opportunities to have others present during any grievance proceeding;
5. Provide to parties whose participation is requested written notice of the date, time, location, participants, and purpose of all investigative interviews, or other meetings, with sufficient time for the party to prepare to participate;
6. Provide both parties an equal opportunity to inspect and review any evidence directly related to the allegations in the formal complaint; and
7. Result in the creation of an investigative report that fairly summarizes relevant evidence.
 - a. Prior to the completion of the investigative report, the investigator shall send to each party the evidence subject to inspection and review. All parties shall have at least ten (10) days to submit a written response which shall be taken into consideration in creating the final report.

Within the parameters of the federal Family Educational Rights and Privacy Act, the Title IX Coordinator shall keep the complainant and the respondent informed of the status of the investigation process. At the close of the investigation, a written final report on the investigation will be delivered to the parent(s)/guardian(s) of the complainant, parent(s)/guardian(s) of the respondent, and to the Director of Schools.

Determination of Responsibility

The respondent is presumed not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance

process. The preponderance of the evidence standard shall be used in making this determination.

The Assistant Director of Schools shall chair a committee of 2 (two) supervisors who act as the decision-makers. He/she shall receive the final report of the investigation and allow each party the opportunity to submit written questions that he/she wants asked of any party or witness prior to the determining responsibility.

The decision-makers shall make a determination regarding responsibility and provide the written determination to the parties simultaneously along with information about how to file an appeal.

A substantiated charge against a student may result in corrective or disciplinary action up to and including expulsion. A substantiated charge against an employee shall result in disciplinary action up to and including termination.

After a determination of responsibility is made, the Title IX Coordinator shall work with the complainant to determine if further supportive measures are necessary. The Title IX Coordinator shall also determine whether any other actions are necessary to prevent reoccurrence of the harassment.

APPEALS

Either party may appeal from a determination of responsibility based on a procedural irregularity that affected the outcome, new evidence that was not reasonably available at the time of the determination that could affect the outcome, or an alleged conflict of interest on the part of the Title IX Coordinator or any personnel chosen to facilitate the grievance process. Appeals shall be submitted to the Title IX Coordinator within ten (10) days of a determination of responsibility.

Upon receipt of an appeal, the Title IX Coordinator shall:

1. Provide all information to the Director of Schools, who serves as the appeals hearing officer, within five (5) days of receipt of the appeal; and
2. Notify the parties in writing.

During the appeal process, the parties shall have a reasonable, equal opportunity to submit written statements. Within ten (10) calendar days, the hearing officer shall issue a written decision describing the result of the appeal and the rationale for the result. The written decision shall be provided simultaneously to both parties.

RETALIATION

Retaliation against any person who makes a report or complaint or assists, participates, or refuses to participate in any investigation of an act alleged in this policy is prohibited.

Before school authorities administer disciplinary measures, reasonable inquiry shall be made to determine the truth of what happened. The nature of this inquiry will vary in degree with the seriousness of the offense.

For minor offenses where the classroom teacher takes corrective measures, no formal procedure is required. The teacher will make an inquiry into the incident to ensure that the offender is accurately identified, that he/she understands the nature of the offense, and that he/she knows the consequences of the offense for which he/she is accused.

In case of severe offenses where there is a possibility of suspension or legal action, the student shall be advised of the nature of his/her misconduct, questioned about it, and allowed to give an explanation. The principal shall investigate the incident prior to administering discipline.

If the principal determines that the offense is of such nature that the student's suspension should exceed ten days, he/she shall refer the case to the Disciplinary Hearing Authority.

INTERROGATIONS AND SEARCHES

Interrogations by School Personnel

Students may be questioned by teachers or principals about any matter pertaining to the operation of a school and/or the enforcement of its rules. Questioning must be conducted discreetly and under circumstances which will avoid unnecessary embarrassment to the student. Any student answering falsely, or evasively or refusing to answer a question may be subject to disciplinary action, including suspension.

If a student is suspected or accused of misconduct or infraction of the student code of conduct, the principal may interrogate the student without the presence of parent(s)/guardian(s).

School personnel have a duty to report any reasonable suspicion that a student is carrying, or has carried, a weapon or is violating or has violated, a provision of the Tennessee Drug Control Act to the principal/designee. If the principal/designee is unavailable and the offense was committed on school property, the suspicion shall be reported to the appropriate authorities.

Interrogations by the Police Department

If the principal has requested assistance by law enforcement to investigate a crime involving his/her school, the police may interrogate a student suspect in school during school hours, on school grounds, and/or during school activities. The principal shall first attempt to notify the parent(s)/guardian(s) of the student unless circumstances require otherwise. However, the interrogation may proceed without attendance of the parent(s)/guardian(s), and the principal or his/her designee shall be present during the interrogation. The use of policewomen or female staff members is desirable in the interrogation of female students.

Police-initiated Interrogations

If the police deem circumstances of sufficient urgency to interrogate students at school for unrelated crimes committed outside of school hours, the police department shall first contact the principal regarding the planned interrogation and inform him/her of the probable cause to investigate. The principal shall make reasonable effort to notify the parent(s)/guardian(s) of the interrogation unless circumstances require otherwise. The interrogation may proceed without attendance of the parent(s)/guardian(s), but the principal or his/her designee shall be present during the interrogation.

Searches by School Personnel

Any principal/designee having reasonable suspicion may search any student, place, package or container, or thing on school property. Such objects may be in the actual or constructive possession of the student while on school property or during any organized school activity, including while riding any school owned vehicle. Such searches may be conducted if the principal/designee receives information which would cause a reasonable suspicion that the search will lead to the discovery of:

1. Evidence of any violation of the law;
2. Evidence of any violation of school rules or proper standards of conduct;
3. Any object or substance which because of its presence presents an immediate danger of harm or illness to any person.

All lockers or other storage areas provided for student use on school premises remain the property of the system and are provided for the use of students, are subject to inspection, and may be accessed for maintenance, or search.

A student may be subject to a physical search, or a student's pocket, purse, or other container may be required to be emptied because of the results of a locker search, or because of information received which seems reasonable to the principal.

School officials may conduct hand-held or walk-through metal detector checks of a student's person or personal effects.

Searches by the Police Department

The principal may request the assistance of a school resource officer or the police to:

1. Search any area of the school premises, any student or any motor vehicle on the school premises; or
2. Identify or dispose of anything found in the course of a search conducted in accordance with this policy.

Student Complaints and Grievances

Student complaints and grievances shall first be made to the teacher, then to the principal/designee. If not resolved, the matter may then be appealed to the Director of Schools/Designee, then ultimately to the Board of Education. Forms for the reporting of such grievances are maintained in the office of each school.

ROBERTSON COUNTY SCHOOLS BULLYING, HAZING AND HARASSMENT PROCEDURE

The Robertson County Schools Bullying, Hazing, and Harassment Procedure will be disseminated annually to all school staff, students, and parents via the Robertson County Student Handbook and/or website. This policy is in effect while students are on school property, at any school sponsored activity, on school provided equipment or transportation, or at any official school bus stop. If the act takes place off school property or outside of a school sponsored activity, this policy is in effect if the conduct is directed specifically at a student or students and has the effect of creating a hostile educational environment or otherwise creating a substantial disruption to the education environment or learning process. These acts may also take place through electronic means. Cyber-bullying is bullying undertaken through the use of electronic devices. Electronic devices include, but are not limited to telephones, cellular phones, or other wireless telecommunication devices, text messaging, emails, social networking sites, instant messaging, videos, websites, or fake profiles.

Bullying is conduct that meets one or more of the following criteria:

1. Is an act directed at one or more students that is intended to harm or embarrass;
 2. Is repeated over time; and
 3. Involves an imbalance of physical, emotional or social power.
- Bullying can be conducted verbally or in writing (teasing, name calling, taunting, threatening to cause harm) socially/relationally (hurting someone's reputation or relationship), or physically (hurting someone or their possessions).

Hazing is an intentional or reckless act by a student or group of students that is directed against any other student(s) that endangers the mental or physical health or safety of the student(s) or that induces or coerces a student to endanger his/her mental or physical health or safety. Hazing does not include customary athletic events or similar contests or competitions and is limited to those actions taken and situation created in connection with initiation or affiliation with any organization.

Reporting and Investigations

The policy requires the principal and/or principal's designee, at each school to be responsible for investigating and resolving complaints alleging violation of this policy. They are responsible for determining whether an alleged act constitutes a violation of this policy. They shall conduct a prompt, thorough, and complete investigation of each alleged incident. Once determined through investigation that the policy has been violated, a report on the investigation will be delivered to the parents of the complainant and accused student(s) and to the Director of Schools (within the parameters of the Federal Family Educational Rights, and Privacy Act (FERPA) at 20 U.S.C. § 1232g). Documentation of all alleged violations of the bullying policy will be kept for historic reference.

All school employees are required to report alleged violations of this policy to the principal and/or principal's designee. All other members of the school community including students, parents, volunteers, and visitors, are encouraged to report any act that may be a violation of this policy. Reports may be made anonymously; however, such complaints may affect the school's ability to issue formal disciplinary action.

Preventions and Intervention Response

Consequences and appropriate remedial for anyone who commits one or more acts of harassment, bullying, or other acts of violent behavior may range from the development of a behavior plan up to and including suspension or expulsion, as set forth in the Robertson County Board of Education's approved code of conduct.

School administrators shall consider the nature and circumstances of the incident, the age and maturity of the student, the degree of harm, previous incidences or pattern of behavior, or any other factors as appropriate to properly respond to each situation.

Consequences for a student who commits an act of harassment, bullying or other act of violent behavior shall be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance, and must be consistent with the Board of Education's approved code of conduct.

Reprisal, Retaliation, and False Accusations

The Robertson County Board of Education prohibits reprisal or retaliation against any person who reports or assists in any investigation of an act alleged in this policy. It prohibits any person from falsely accusing another of having committed an act of harassment or bullying as means of reprisal or retaliation. The consequences of appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the administrator after consideration of the nature, severity, and circumstances of the act.

Sexual Harassment of Students

Sexual harassment activity toward any student by an employee or another student will not be tolerated. Sexual harassment is defined as conduct, advances, gestures or words of a sexual nature which:

1. Unreasonably interferes with the student's work or educational opportunities; or
2. Creates an intimidating, hostile or offensive learning environment; or
3. Implies that submission to such conduct is an explicit or implicit term of receiving grades; or
4. Implies that submission to or rejection of such conduct will be used as a basis of determining the student's grades and/or participation in an activity.

Victims of sexual harassment shall report these conditions to the appropriate school official. Confidentiality will be maintained, and no reprisals or retaliation will occur as a result of good faith reporting of charges.

In determining whether alleged conduct constitutes sexual harassment, all of the circumstances, including the nature of the conduct and the context in which the alleged conduct occurred will be investigated. The principal/designee shall be responsible for investigating the complaint. If satisfactory resolution of the complaint is not reached, the student may appeal the matter to the Director of Schools and, ultimately, to the Board.

Racial Harassment

Racial harassment activity toward any student by an employee or another student will not be tolerated. Racial harassment may include:

implications; or

Any person who alleges racial harassment by a staff member or student may complain directly to a principal or other individual designated to receive such complaints. Filing of a complaint or otherwise reporting racial harassment will not reflect upon the individual's status nor will it affect future employment, grades, or assignments.

The right to confidentiality, both complainant and of the accused, will be respected, consistent with the Board's legal obligations, and with the necessity to investigate allegations of misconduct and to take corrective action when the conduct has occurred.

Student Conduct

The staff is authorized to take reasonable measures to establish appropriate school behavior. Any employee shall have the authority to control the conduct of any student while under the supervision of the system. This authority shall extend to all school activities, including all games and public performances of athletic teams or other groups, trips and excursions. Such measures may include the use of reasonable force to restrain or correct students and maintain order.

A student shall not use violence, force, noise, coercion, threat, intimidation, fear, passive resistance or any other conduct which causes the disruption, interference or obstruction of any school purpose while on school property, in school vehicles or at any school-sponsored activity, function or event, whether on or off campus. Neither shall he/she urge other students to engage in such conduct.

A student found guilty of misbehavior may receive punishment ranging from verbal reprimand to suspension and/or expulsion dependent upon the severity of the offense and the offender's prior record, age and appropriate accommodation to meet individual differences. The protections of IDEA and Section 504 are required and will be followed for all identified eligible students.

Use of Tobacco

The use and possession of tobacco products, electronic cigarettes, or tobacco paraphernalia by students is prohibited in school buildings or on school grounds, in school vehicles or buses, or at any school-sponsored activity at any time, whether on

or off school grounds.

State law states that law enforcement officials may issue a juvenile court citation for students under 18 who unlawfully possess tobacco products and/or electronic cigarettes. At the time of issuance of the citation, the officer or school official shall seize the tobacco product. In addition, the following actions will be taken:

1st offense	ISS, warning, and a letter explaining the violation

3rd and subsequent offenses	2 day suspension

Students will not market or distribute any substance that is represented to be or is substantially similar in color, shape, size or markings to a controlled substance.

Upon information that a student is suspected of violating this policy, the principal/designee shall be notified immediately. If it is determined that the policy has been violated the principal/designee shall notify the parent and appropriate law enforcement officials. The student shall be suspended to the Disciplinary Hearing Authority and be subject to a one calendar year suspension.

Reporting Unsafe Operation of a School Bus

If you observe a Robertson County School Bus being operated in an unsafe manner, please report unsafe behavior to the Supervisor of Transportation by calling 615-382-4680.

Bus Conduct

The school bus is an extension of the school and a privilege; therefore, students shall conduct themselves on the bus in a manner consistent with the established standards for safety and classroom behavior. Students are under the supervision and control of the bus driver while on the bus, and all reasonable directions shall be followed.

The principal/designee of the student transported shall be informed by the bus driver of any serious discipline problem and may be called upon to assist if necessary. A student may be denied the privilege of riding the bus if the principal/designee determines that the behavior is such as to cause disruption on the bus or if s/he disobeys state or local rules pertaining to transportation.

Any student who gets off the bus at any point between the pick-up point and the school must present the bus driver with a note of authorization from the parent and signed by the principal/designee of the school that the student attends. Any student wishing to ride a bus other than his/her designated bus must have written permission from the parent and approval of the principal/designee.

Bus Rules

Safe and dependable pupil transportation requires constant team effort from all those involved in the process. It is of great concern that each child is safe every day.

- 1. ON TIME** In order that drivers may meet their schedules, students must be at the proper location for boarding the bus on time. Running to the bus presents added danger. Students should be at their stop prior to their scheduled bus pickup time.
- 2. WAITING** All students must stay well clear of traffic lanes while waiting for the bus. Running, fighting, or shoving will not be allowed.
- 3. COURTEOUS** Each student who rides a school bus is expected to demonstrate a courteous and cooperative manner to all personnel.
- 4. GOOD ORDER** Students must maintain reasonable order so that the driver may be alert for any traffic hazards, signals, or emergency vehicles.
- 5. REMAIN SEATED** All students are to be seated and remain seated for the total trip. The drivers are encouraged to assign seats to students to maintain order and safety.

6. **PROPER DESTINATION** Students must ride to their proper destination. To get off elsewhere, the student will give the driver a dated note signed by the parent and the principal/designee.
7. **NO EATING** Eating is not allowed on the bus. Drinks (soft drinks, coffee, orange juice, milk, etc.) are not allowed to be opened or consumed on the bus. The system may occasionally provide water for students during hot months.
8. **KEEP INSIDE** No student is to put his/her head, hands, or arms outside the bus window.
9. **DEPARTING BUS** If students must cross the road after getting off the bus, they shall walk across approximately twelve (12) feet in front of the bus, making sure traffic has stopped in both directions, and then cross upon a signal from the driver. Students should never walk behind the bus.
10. **STAY CLEAR** Students must never play about the bus when getting on and off. Horseplay getting on and off the bus can be extremely dangerous. Students shall remain out of the Danger Zone at all times for safety.
11. **ELIGIBILITY** A student shall become ineligible for pupil transportation when his/her behavior is such as to cause dissension on a school bus or when he/she disobeys state or local rules and regulations pertaining to student transportation. School Transportation services are a privilege and may be revoked if safety violations occur.
12. **RESPONSIBILITY** It is the personal responsibility of the student and his/her parent(s)/guardian(s) to maintain eligibility to ride the bus.
13. **PAY FOR DAMAGE** Students who are known to inflict damages to the bus will pay the cost of repairs. This may be part of the principal's disciplinary action. Failure to pay for the cost of repairs may affect bus riding privileges.
14. **PRINCIPAL IN CHARGE** The principal of the school which the student attends is in charge of students' behavior on the bus just as in the classroom. Drivers will report to the principal students who need correction. The Transportation Supervisor may make recommendations to principals regarding disciplinary action.
15. **DISCIPLINE** The principal of the school will administer discipline for inappropriate behavior as required. This discipline may include suspension from school. When suspended from the bus, a student is suspended from all buses.
16. **RAILROAD CROSSING** Students must reduce the noise level and assist the driver in listening and looking in order for a safe crossing.
17. **PRE-K BOARDING** Pre-K students always board and unload the bus first to facilitate sign-on/sign off and ensure student safety.
18. **PARENT RESPONSIBILITY AT BUS STOPS**

Although we are committed to the safety of students on the bus and at the bus stop, there are situations that require your assistance and participation in order to enhance child safety. Students are under the control of the parent/guardian walking to and from the bus stop.
19. **BUSES EQUIPPED WITH SAFETY BELTS**

If a school bus is equipped with safety belts, students must wear them; students who do not properly equip their seat belts are subject to disciplinary action.

Weapons and Dangerous Instruments

Students shall not possess, handle, transmit, use, or attempt to use any dangerous weapon in school buildings or on school grounds at any time, or in school vehicles, or off school grounds at a school-sponsored event.

Upon information that a student is suspected of violating this policy, the principal shall notify the student's parent and the appropriate law enforcement officials as required by law. Any weapon or instrument that is deemed to be hazardous, including laser pointers, shall be immediately confiscated.

Instruments, including tools and clips and unaltered nail files, used solely for the preparation of food, instruction and maintenance must be approved by the principal and used under the direct supervision of the teacher.

The Board of Education identifies the following items to be a hazard to the safety of the school population and a detriment to a positive educational environment. The board prohibits the possession of these items. After inquiry and obtaining the facts of the accusations, the principal shall take appropriate action. [References are made to FL - Federal Law; SL - State Law; or CO – Central Office Policy.]

Admission Requirements

Parents of newly enrolling students must present:

- ❖ Long form birth certificate or officially accepted evidence of date of birth at the time of registration
- ❖ Evidence of current medical examination
- ❖ Evidence of required immunizations on a Tennessee Certificate
- ❖ Proofs of residence

If a student is experiencing homelessness or is an unaccompanied minor, contact Jenni Duskey, Homeless Liaison (615-382-3609).

Students must reside with the custodial parent, court appointed legal guardian, or properly delegated adult as provided for in T. C. A. 34-6-301 - 34-6-310. Both the

parent(s)/guardian(s) and the designated caregiver must reside in the State of Tennessee and the caregiver must reside in Robertson County.

Delegation of authority-“Parent” defined.–(a)

(1) A parent or parents of a minor child may delegate to any adult person residing in this state temporary care-giving authority regarding the minor child when hardship prevents the parent or parents from caring for the child. This authority may be delegated without the approval of a court by executing in writing a power of attorney for care of a minor child on a form provided by the department of children’s services. Hardships may include but are not limited to:

- (A) The serious illness or incarceration of a parent or legal guardian;
- (B) The physical or mental condition of the parent or legal guardian or the child is such that care, and supervision of the child cannot be provided; or
- (C) The loss or inhabitability of the child’s home as the result of a natural disaster.

(2) A local education agency (LEA) is not required to enroll a student with a power of attorney stating a hardship other than one (1) of the three (3) specifically stated in subdivisions (a)(1)(A)-(C). The LEA may, however, enroll a student with a properly executed power of attorney for other hardships on a case by case basis. Additional documentation may be requested.

(b) The power of attorney for care of the minor child shall be signed and acknowledged before a notary public by the parent.

(c) For purposes of this part the term “parent” includes a legal guardian or legal custodian of the minor child. [Acts 2003, ch. 71§ 1; 2004, ch. 521, §1.] All POAs must be revisited annually.

Admission of Suspended or Expelled Students

The Board may deny admission of any student who has been suspended or expelled from another in-state school system, even though the student changes residence. Enrolled students may be dismissed if it is determined subsequent to the enrollment that the student has been suspended or expelled from the former school system.

Compulsory Attendance

Attendance is a key factor in student achievement and students are expected to be present each day school is in session. The State requires all children between the ages of 6 and 17, inclusively, to attend school. A child entering kindergarten shall be no less than 5 on or before August 15. No child shall be eligible to enter first grade without having attended an approved kindergarten program. A child entering a special education program shall be no less than three years of age.

Absences from School and Attendance

Absences shall be classified as either excused or unexcused by the Principal/Designee.

Excused absences may include, but not be limited to:

- (1) illness of student; after three (3) consecutive days, or repeated absences, a note from a physician may be required;
- (2) illness of an immediate family member which requires the student's help at home;
- (3) death of a family member;
- (4) extreme weather conditions;
- (5) religious observances;
- (6) college visits;
- (7) pregnancy;
- (8) School sponsored or school endorsed activities;
- (9) Summons, subpoena, or court order;
- (10) circumstances, in the judgment of the principal/designee, created by emergencies over which the student has no control.

Schools may require an official verification of any appointment prior to excusing the absence. Schools may limit the number of excused absences for appointments.

Unexcused absences shall include but are not limited to:

- (1) car trouble;
- (2) personal business (e.g. cleaning house, shopping, babysitting, errands, hair appointment, work in the private sector).

In order to receive any attendance credit, including credit toward perfect attendance, a student must be present for the majority of the school day in accordance with State Attendance Accounting policies.

Reasons for absences or tardiness and requests for early dismissals before the close of school must be requested by the custodial parent or guardian or those authorized by the parent/guardian to request release. Students participating in school-sponsored activities whether on or off campus shall not be counted absent.

All missed class work or tests may be made up. Reasonable effort must be made, and ample opportunities must be provided by school personnel. Grades may reflect less than full credit. (Exceptions include pre-announced tests and term assignments that will be due upon return.) School work and tests missed for suspensions may be required to be made up.

Students may be denied the privilege of making up work missed as a result of an unexcused absence or suspension. All schools will review students' attendance and refer students to the Student Services Supervisor.

An accumulation of **8** unexcused tardies/early dismissals will equal **1** unexcused day, which will contribute to the number of unexcused days that trigger truancy interventions. Such absences may result in referral to Juvenile Court.

Chronic Absenteeism

While only unexcused absences accumulate for truancy purposes, the Robertson County Schools firmly believe in the importance of regular school attendance and recognize the role attendance plays in student success. As such, all student absences must be investigated and verified. School attendance is an essential dimension of overall student success. School attendance for children ages 6 to 17 inclusive is mandated by state law (TCA 49-6-3001) and penalties will apply for truant children (TCA 49-6-3007).

Release During School Hours

The following procedures will be observed with regard to dismissal:

1. No student will leave school prior to regular dismissal hours except with the approval of the principal and parent. Elementary students will be permitted to leave school prior to regular dismissal only in the company of a parent, guardian, employee, police officer, court officer, or a person designated by the parent in writing
2. No student will be sent from school to perform an errand or act as a messenger.
3. When dental/medical appointments cannot be scheduled outside school hours, a parent/guardian must send a signed, written request for dismissal or call for the student in person. Schools may require an official verification of the appointment prior to excusing the absence.
4. Students will be released only upon the written request of the custodial parent/guardian or to those authorized by the parent/guardian.
5. Schools shall not permit a change in the physical custody of a child unless the person seeking custody presents a certified copy of a court order and gives reasonable advance notice.
6. High School students may be released for jobs and training centers outside their home school only when it is a part of an approved program.

In addition, the SchoolMessenger system will be implemented. Parents are requested to maintain up-to-date telephone numbers for the SchoolMessenger system. Procedures for In-School Suspension (ISS) and Out-of School Suspension (OSS)

Unless the student's continued presence in the school, class or activity presents immediate danger to the student or other persons or property, no Principal shall suspend any student until that student has been advised of the nature of the misconduct, questioned about the incident, and allowed to give an explanation.

Upon suspension of any student (including ISS in excess of one (1) day), an immediate attempt shall be made to contact the parent to inform him/her of the suspension. The student shall not be sent home before the end of the school day unless contact has been made.

Upon suspension of any student, other than for ISS of one day or less, the principal shall, within 24 hours, notify the parent and the Director of Schools of (1) the length, (2) the cause, and (3) the conditions for readmission which may include, at the request of either party, a meeting with the parent, student and principal.

If the suspension is to exceed five (5) days, but is no more than ten (10) days, the principal shall request a meeting with the parent and student within the first five (5) days following the issuance of the suspension and shall develop and implement a plan for correcting the behavior. At the time of this meeting, whether attended or not by the parent/guardian and the student, the Principal shall determine the length of the suspension (up to ten (10) days total) and the conditions for readmission.

If at the time of the suspension, the principal/designee determines that an offense has been committed which in the judgment of the principal/designee would justify a suspension for more than ten (10) days, s/he shall immediately suspend the student to the Disciplinary Hearing Authority. After the hearing, the Disciplinary Hearing Authority may:

1. Order the removal of the suspension.
2. Order the removal of the suspension upon terms and conditions it deems reasonable.
3. Assign the student to an Alternative Program.
4. Suspend a student for a specified period of time.
5. Recommend expulsion to the Board of Education.

The Disciplinary Hearing Authority (DHA) shall make a written record of the proceedings. The student, parent, or Principal, may, within five days of the decision, request an appeal of the decision of the DHA. After a review, the Board may affirm the decision of the DHA, modify the decision, or grant a hearing before the Board. After the hearing, the Board may affirm the decision, modify the decision, including imposing a more severe penalty than that of the DHA.

If the suspension occurs during the last ten (10) days of any term or semester, the student shall be permitted to take such final examinations or submit such work as necessary to complete the course of instruction for that semester, subject to conditions prescribed by the principal/designee. Students under suspension from one school in the System cannot enter another school, nor attend school-sponsored activities/events in the System.

Zero-Tolerance Behavior

In order to ensure a safe and secure learning environment free of drugs, drug paraphernalia, violence and dangerous weapons, any student who engages in the following behaviors will be subject to a suspension for a period of not less than one calendar year. High Intellectual Potential

Definition for Intellectually Gifted

"Intellectually Gifted" means a child whose intellectual abilities, creativity, and potential for achievement are so outstanding that the child's needs exceed differentiated general education programming, adversely affects educational performance, and requires specifically designed instruction or support services. Children from all populations (e.g., all cultural, racial, and ethnic groups, English Learners, all economic strata, twice exceptional, etc.) can be found to possess these abilities. Children identified as intellectually gifted are exempted from the discipline procedures at 34.C.F.R. 300.530-537. Children with a dual diagnosis that includes intellectually gifted must be considered as children with a disability and may not be exempted from the discipline procedures at 34 C.R.F. 300.530-537.

"Adverse affect" means the general curriculum alone is inadequate to appropriately meet the student's educational needs.

Intellectual giftedness is found throughout diverse populations and crosses all economic and cultural boundaries. Early identification and intervention are often required to meet the unique needs of children. The State of Tennessee and Local Education Agencies are committed to providing equitable and appropriate assessment for all students.

Do you know a student who?

- Is unusually eager to learn
- Is a creative thinker
- Can easily transfer knowledge to new situations
- Shows unusual empathy for people and concern for social issue

Research shows that 3-5% of our population possesses many of these exceptional traits. These children should be nurtured and their education enhanced for their own benefit, and for the advancement of mankind.

Assessment Criteria

Eligibility for services as a gifted student is based on evaluation in each of the following component areas:

- Educational Performance/Achievement
- Creativity/Characteristics
- Cognitive/Intelligence

Eligibility Criteria

In addition to meeting assessment criteria, a student must demonstrate a need for services beyond what is provided in the general education curriculum.

The Referral Process

Anyone, including the parent(s), guardian, or community professional may refer a student for screening and possible evaluation. A screening team of educational professionals considers screening information, previous evaluations, and teacher/parent input to determine if a comprehensive evaluation is needed. The team's decision is based on multiple data sources. An assessment team will determine the types of assessment needed. All procedural safeguards are followed to ensure evaluation procedures are non-discriminatory.

Services for Gifted Students

Special services are often required to meet the unique needs of gifted children. A team of professionals and the child's parent(s) plan the student's educational program based on the assessment information obtained through the evaluation process.

If you know of a child with these outstanding abilities and characteristics and would like to refer him/her for gifted evaluation, please contact your school's gifted teacher or the Gifted Coordinator at the County Office at any time.
